Hi Katrina – Was a removal action report completed for this? I could have missed but in any event I can't find one. If one is available could you please forward so I can share with the Risk Assessors.
Thank you
Pat

[Pat here are some final totals for work done at Tank 5.](#)

1. Final T&D Costs were \$43,494.06
2. The area was an odd shape, but I estimated 15,000 sq ft for the hydroseed. Total tonnage was 1,348.65 tons so using conversion factor of 1.35 tons/CY it was approximately 1,000 CYs.
3. American Environmental Landfill, 212 N 177th W Ave, Sand Springs, OK 74063
4. We subcontracted GEM Dirt in Tulsa to provide the gravel, subsoil, and topsoil. Total cost was \$29,477.00
